

Our staff is collectively experienced in all disciplines of airport planning and has a vast knowledge of the requirements set forth in various federal and state guidance documentation, including a thorough understanding of the FAA Advisory Circulars 150/5300-13B, *Airport Design*, and 150/5070-6B, *Airport Master Plans*. Regarding NEPA documents, we also have a complete understanding of FAA Order 1050.1F, *Environmental Impacts: Policies and Procedures*, FAA Order 5050.4B, *NEPA Implementing Instructions for Airport Actions*, and the FAA Office of Airports *Environmental Desk Reference for Airport Actions*. Coffman Associates staff have become experts in these regulations because we work with these guidance documents and the FAA daily at airports across the United States. Below is a chart of our personnel and their experience as it relates to airport and environmental planning.
